I have elected to use one or more private providers to provide building code plan review and/or inspection services on the building that is the subject of the enclosed permit application, as authorized by s. 553.791, Florida Statutes. I understand that the local Building Official may not review the plans submitted or perform the required building inspections to determine compliance with the applicable codes, except to the extent specified in said law. Instead, plan review and/or required building inspections will be performed by licensed or certified personnel identified in the application. The law requires minimum insurance requirements for such personnel, but I understand that I may require more insurance to protect my interests. By executing this form, I acknowledge that I have made inquiry regarding the competence of the licensed or certified personnel and the level of their insurance and am satisfied that my interests are adequately protected. I agree to indemnify, defend, and hold harmless the local government, the local Building Official, and their building code enforcement personnel from any and all claims arising from my use of these licensed or certified personnel to perform building code inspection services with respect to the building that is the subject of the enclosed permit application.

I understand the Building Official retains authority to review plans, make required inspections, and enforce the applicable codes within his or her charge pursuant to the standards established by s. 553.791, Florida Statutes. If I make any changes to the listed private providers or the services to be provided by those private providers, I shall, within one (1) business day after any change, update this notice to reflect such changes. The building plan review and/or inspection services provided by the private provider is limited to compliance with the Florida Building Code and any local technical amendments to the Florida Building Code, but does not include review for fire code, land use, environmental, FEMA requirements or other codes.

4. Section 553.791(16) of the Florida Statutes provides for requiring minimum insurance coverage for professional liability covering all services performed as a private provider. The section states: "A private provider may perform building code inspection services on a building project under this section only if the private provider maintains insurance for professional liability covering all services performed as a private provider. Such insurance shall have minimum policy limits of \$1 million per occurrence and \$2 million in the aggregate for any project with a construction cost of \$5 million or less and \$2 million per occurrence and \$4 million in the aggregate for any project with a construction cost of over \$5 million. Nothing in this section limits the ability of a fee owner to require additional insurance or higher policy limits. For these purposes, the term "construction cost" means the total cost of building construction as stated in the building permit application. **If the private provider chooses to secure "claims-made" coverage to fulfill this requirement, the private provider must also maintain coverage for a minimum of 5 years subsequent to the performance of building code inspection services.** The insurance required under this subsection shall be written only by insurers authorized to do business in this State with a minimum A.M. Best's rating of A. Before providing building code inspection services within a local building official's jurisdiction, a private provider must provide to the local building official a Certificate of Insurance evidencing that the coverage's required under this subsection are in force." The proof of insurance required by this section will be expected seven (7) days prior to first inspection by the private provider firm.
5. The Private Provider shall notify the Building Official of inspection requests by contacting the Building Dept. via email at DSStaff@belleviewfl.org prior to performing any inspections by the Private Provider on the permitted building structure(s).
